

Lackawanna College

CONSTRUCTION PRE-APPRENTICESHIP

(Available Hazleton Center)

CERTIFICATE PROGRAM

ACADEMIC YEAR 2022-2023

NAME _____

This 16 credit program is designed to create a solid pipeline for students interested in the construction trades to apprenticeships. These courses provide training in Safety with Certification, both Hand and Power tools, and specialized rigging. The math and communication courses are specialized for the construction industry to support the specific training goals. Further technology training is included to keep these students current on all modes of online communication.
