

Lackawanna College

SUSTAINABLE LEADERSHIP

(Available Environmental Education Center)

CERTIFICATE PROGRAM

ACADEMIC YEAR 2023-2024

NAME _____

This 16 credit certificate provides the foundation needed to become a sustainability professional. Students will learn how to use systems thinking and problem-solving skills to gain a deeper understanding of the complexity of sustainability, which includes economic, social and environmental issues.

The online distance-learning format develops leadership and management skills by exploring how to become an efficient leader, encouraging a productive workforce and reducing expenditure costs.
